DASHBOARD

This simple dashboard helps to calculate fleet manager's or owner operator to log his/her loads. However, a few actions needs to be performed first.

- 1. Define Cost per mile*
- 2. Define all types of fixed payments*

COST PER MILE

User needs to define cost per mile section first before adding loads in the app.

1. Mileage Fee (\$/mile)
2. Fuel (\$/mile)
3. DEF – Diesel Exhaust Fluid (\$/mile)
4. Driver Pay (\$/mile)

This screenshot shows the 'Cost Per Mile' setup screen in the TruckersEdge app. At the top, it says 'Good Evening!'. Below that are two buttons: 'Cost Per Mile' (highlighted in blue) and 'Fixed Payment'. A message box states 'Step 1: Please add cost per mile' and contains a 'Calculate' button with the text 'This is a calculator where you can calculate your expenses'. A 'SKIP' button is at the bottom right.This screenshot shows the 'Cost Per Mile' calculation screen. It has a green header with the time '12:20' and a menu icon. The title 'Cost Per Mile' is at the top right with an edit icon. Below are four input fields with their respective labels and values:

- Mileage Fee (\$/mile): 0.075
- Fuel (\$/mile): 0.58
- DEF (\$/mile): 0.4
- Driver Pay (\$/mile): 0.6

FIXED COST

User needs to define fixed cost associated to fleet and vehicle (\$/week) before adding loads in the app.

1. Truck Payment (\$/week)
2. Insurance (\$/week)
3. Trailer Lease (\$/week)
4. ELD Service (\$/week)
5. Overhead
6. Any other additional cost

A screenshot of the TruckersEdge app showing the 'Fixed Cost' setup screen. At the top, it says 'Good Morning!'. Below that are two buttons: 'Cost Per Mile' and 'Fixed Cost', with 'Fixed Cost' being the active selection. A box labeled 'Step 2: Please add fixed payment' contains a 'Calculate' button and a note: 'This is a calculator where you can calculate your expenses'. A 'SKIP' button is at the bottom right.A screenshot of the 'Fixed Cost' summary screen in the TruckersEdge app. It lists various costs with input fields and calculated weekly totals. At the bottom, a green bar shows the 'Weekly fixed cost' as '\$1059.61'.

Category	Value	Unit	Weekly Total
Truck Payment	2000.0	\$/week	\$461.54
Insurance	1600.0	\$/week	\$369.23
Trailer lease	750.0	\$/week	\$173.08
ELD Service	75.0	\$/week	\$17.31
Overhead	166.66		
Other	0.0		
Weekly fixed cost	\$1059.61		

ADD LOAD DETAILS

User can click on "Calculate" button on dashboard and can enter the load details after completing the pre-requisites. This includes the following

1. Freight Charges (\$)
2. Dispatched Miles
3. Estimated Tolls (\$)
4. Other Costs (\$)

We can also add multiple loads either one time in a week or on daily basis.

Note: This is a weekly activity, and all loads will be archived every Monday till 6am.

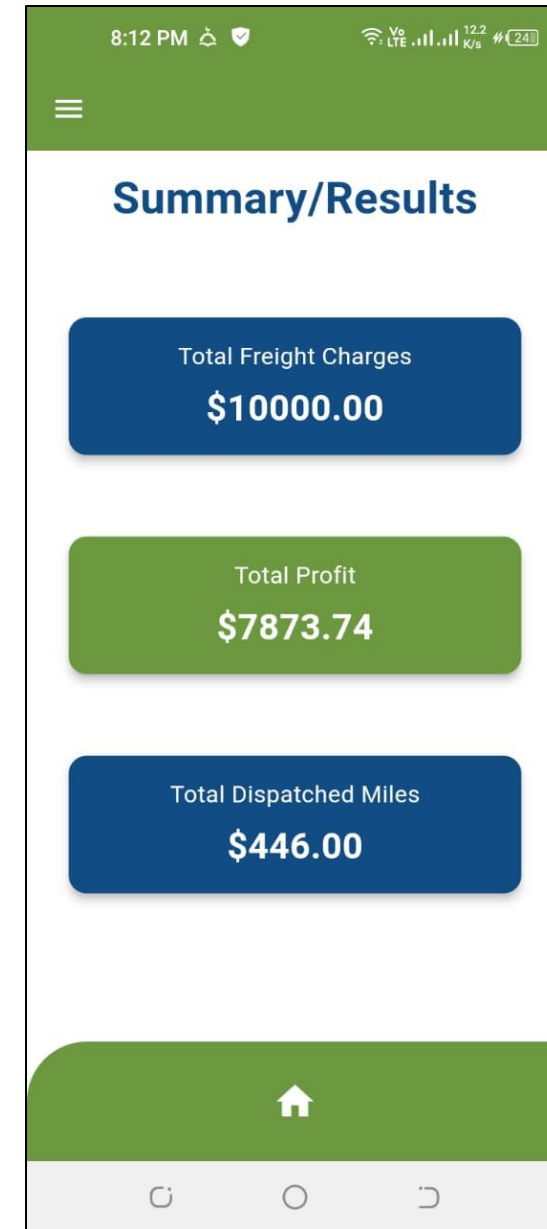

A screenshot of a mobile application interface for adding load details. The screen has a green header bar with the time '12:21' and status icons. Below the header is a white card with a blue 'Load 1' button in the top right corner. The card contains four input fields: 'Freight Charge (\$)' with a placeholder 'e.g., \$1000', 'Dispatched Miles' with a placeholder 'e.g., 2000', 'Estimated Tolls (\$)' with a placeholder 'e.g., \$50', and 'Other Costs (\$)' with a placeholder 'e.g., \$100'. At the bottom of the card is a red trash icon and a '+ Add' button. A green footer bar at the very bottom contains a white 'Update' button.

SUMMARY/RESULTS

Once you add a specific load, a summary screen will appear and provide the following consolidated data of the ongoing week

1. *Total Freight Charges*
2. *Total Profit or Loss*
3. *Total Dispatched Miles*

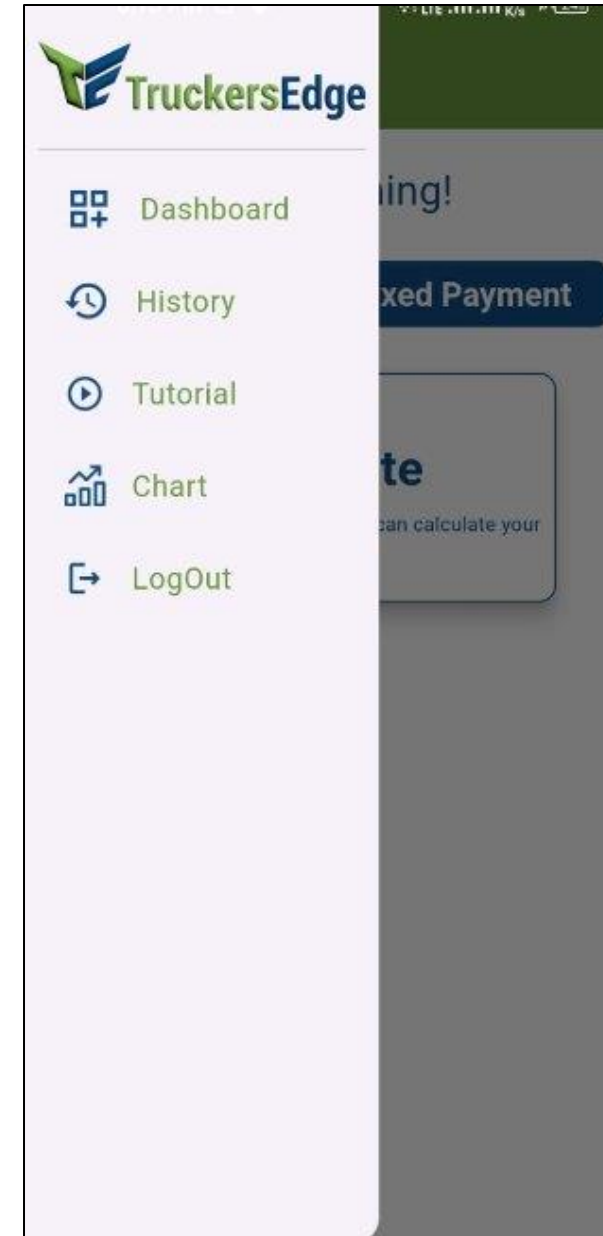

SIDE MENU

Side menu will provide you all the accessibilities to the following areas

1. *Dashboard*
2. *History (All details of previously added loads of all weeks.*
3. *Tutorial (Guide)*
4. *Chart/Insights/Reports*
5. *Logout*

HISTORY

In history option, a list of loads for the previous weeks will be displayed. You can check and keep your records aligned with this.

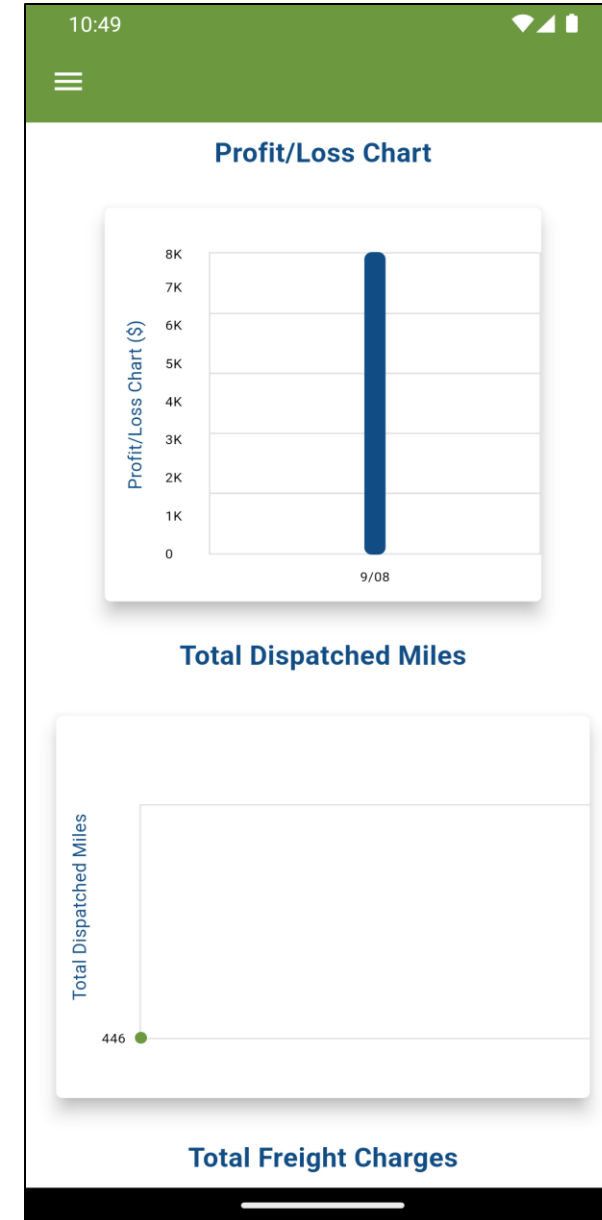

ANALYTICS

Analytics will help you to see the trends of the following elements:

1. *Profit/Loss.*
2. *Total Dispatched Miles.*
3. *Total Freight Chargers.*

These will be charts to display the values of respective element. On x-axis we have time and on y-axis, we have value based on the element.

Thank you!
